(EXUVIA)**

**GRASSHOPPER**  
*Acrididea*

**CICADA NYMPH**

**KATYDID**  
*Tettigoniidae*

Artwork by Lianne Pflug

Up to 1.5 million 17-year cicadas per acre will soon boil out of the ground and start singing (though it sounds more like screaming!). Learn why they take 17 years to emerge, how to protect your trees, about fun cicada activities, and more at <https://tinyurl.com/PurdueCicadas>.
